

Secure room Soteria

Electromagnetic & acoustic insulation

- To secure meetings between high-ranking decision-makers: diplomats, defense authorities, business leaders / CEOs, etc.
- To secure places where classified information are exchanged or processed
- Prevents eavesdropping, loss or interception of data, blocking of sensitive information processing systems

Solutions

- Electromagnetic isolation by shielding existing rooms (Faraday cage or architectural solution) according to EN50147-1 standard
- Interior acoustic treatment of premises (floor, walls, ceiling) according to EN/ISO11957 standard
- High level personalized finish (interior designer)
- Consideration of related lots: electricity, Aircon, access control, fire detection / extinction, CCTV, intrusion detection
